Clean cu

Cleancu antimicrobial copper PE

The results in the above table shows that the base resin meets the requirements of the U.S. Food and Drug Administration as specified in 21 CFR 177.1520 olefin polymers. The product meets the respective FDA regulation 21 CFR 177.1520 (c) specifications 2.1. The olefin polymers may be safely used as articles or components of articles intended for use in contact with food.

If you have any questions regarding these results or if you require additional information, please feel free to contact us.

Respectfully Submitted,

Roy Lung
